Contenu

Description

RTE intends to launch a call for bid for HVDC VSC onshore converter stations and offshore substations part of 1.2 GW HVDC links at DC operating voltage 320 kV connecting Offshore Wind Farms (OWFs) to the French grid. RTE intends to enter into contracts with the selected contractors for the execution of the Engineering, Procurement, Construction, Installation and Commissioning (EPCIC) and Maintenance (LTSA) related to the onshore converter stations and offshore substations including, as the case may be, with a Multi-iProject Agreement (MPA)
